

**Re: Proposed Re-Zoning and Redevelopment on the NW Corner of
Brisebois and Northmount
JULY 2015 UPDATE**

On July 28th, 2015 representatives from the Brentwood Community Association, the Brentwood Development Committee, NORR (Architects, Planners) and Lupi Custom Homes, as well as adjacent residents affected by the construction, took part in a workshop session to discuss the site design and the opportunities and constraints that will form the foundation of a Development Permit application for the old gas station site on Northmount Drive and Brisebois Drive NW. In this session the working group discussed issues including shadowing, traffic, parking and privacy. Lupi Custom Homes would like to stop the rumors and has confirmed that they have **NO** intention on developing a bar on the location. A future meeting will be scheduled to review preliminary designs and allow for further community input.
