Re: August Construction Activities

Attn: Melanie Swailes & Brentwood Community Association

We thank you for your continued cooperation with the construction activities occurring on the corner of Brisbois and Northmount Drive. As part of keeping the communication lines open, we are presenting a general overview of the August construction activities for your information.

In August, the major construction activities to commence are as follows:

- Further excavating and milling the shoring walls to the bottom of the hole
- Rebar placement in preparation for concrete pours
- Pouring concrete footings and foundation slabs
- Install waterproofing to the foundation walls

These construction activities will have the following effects:

- Dump trucks hauling away the excavated soil
- Increased amount of concrete trucks
- Occasional deliveries of rebar

As general practice, Bird does not typically work Sundays or Statuary Holidays; however, there will be exceptions made if it becomes a necessity to meet scheduling demands. All construction activities will adhere to the bylaws and regulations set out by the City of Calgary. For concerns regarding the bylaws or regulations, please direct your calls to the City of Calgary.

If you have any questions or concerns, please don't hesitate to contact me.

Sincerely,

Nicholas Elliott, AT, Green Associate
Project Manager
