Re: August Construction Activities

Attn: Melanie Swailes & Brentwood Community Association

We thank you for your continued cooperation with the construction activities occurring on the corner of Brisbois and Northmount Drive. As part of keeping the communication lines open, we are presenting a general overview of the September & October construction activities for your information.

In September & October, the major construction activities to commence/continue are as follows:

- Final Excavation of footings & backfill
- Rebar placement in preparation for concrete pours
- Pouring concrete footings, foundation walls and suspended slabs
- Install waterproofing to the foundation walls
- Installation of mechanical underground within the building footprint

These construction activities will have the following effects:

- Daily Excavator use with periodic dump truck rotation for delivery of slab subbase or removal of excess fill
- Increased amount of concrete trucks & pumps
- Occasional deliveries of reinforcing steel, mechanical underground material, and waterproofing material
  - o These deliveries require a crane to hoist into the excavation meaning lane closures on Northmount and or Brisbois will be applied for and executed with assistance from The City of Calgary.

As general practice, Bird does not typically work Sundays or Statuary Holidays; however, there will be exceptions made if it becomes a necessity to meet scheduling demands. All construction activities will adhere to the bylaws and regulations set out by the City of Calgary. For concerns regarding the bylaws or regulations, please direct your calls to the City of Calgary.

If you have any questions or concerns, please don't hesitate to contact me.

Sincerely,

Nicholas Elliott, AT, Green Associate  
Project Manager
